1. You should be able to access the Blackboard course by clicking the link associated with the orientation component. You can also enter the course by logging in to your Blackboard at courseware.ku.edu. If you are still having trouble accessing the course, it may be that you still need to be added as a student by the instructor. In this case, email Kaila Colyott at kcolyott@ku.edu to get added to the course.
2. If you are teaching in a department that has an approved alternative GTA orientation, you only need to complete the CTE-hosted New GTA Policy Tutorial component. You can check to see if your department has an alternative program at cte.ku.edu/gta-resources.
